KIT B - Cod. 380-0003

Highly popular sets for deburring holes, slots & edges on metals and plastics. Each set has supplied with a B Holder that accepts all B blades.

KIT E - Cod. 380-0006

Rugged deburring set for heavy-duty deburring of holes, slots and edges. Each set has supplied with an E Holder that supports any E blade.

HD2000 - Cod. 380-0060

Heavy-Duty Sheet Cleaner. Designed for heavy-duty materials that have single or double straight edges up to 12 mm (0.48") thick and produce spiral or powdery chips. Each set has supplied with two round R20 blades that can be used either one-at-a-time or two-at-a-time. Includes an attached Handguard for worker safety.

KIT BB - Cod. 380-0054

Coated, aluminium handle. Slim-grip, suitable tool for heavy-duty deburring of steels, aluminium and plastics. Supplied with a replaceable E100 blade and accepts all other E blades.

HD1 - Cod. 380-0052

Coated, aluminium handle. Slim-grip, suitable tool for heavy-duty deburring of steels, aluminium and plastics. Supplied with a non-replaceable E100 blade. Features a convenient pocket clip.

Blade Holder B - Cod. 380-0011

Holds all B blades

B10 - Cod. 380-0012

B10 HSS Deburrs materials with Spiral chips.

Applications: Straight Edge, Hole Edge.

Materials: Steel, Aluminium, Coppers, Plastics.

B20 - Cod. 380-0014

B20 HSS Turns clockwise and counterclockwise.

Applications: Straight Edge, Hole Edge.

Materials : Brass, Cast Iron, Plastics.

B30 - Cod. 380-0015

Simultaneously deburrs the inside and outside of holes up to 4mm (0.16") thick.

Applications: Cross Hole and Both Edge.

Materials: Steel, Aluminium, Coppers, Plastics.

Blade Holder E - Cod. 380-0025

Holds all E blades

E100 - Cod. 380-0026

E100 HSS Heavy-duty. Deburrs materials with Spiral chips.

Applications: Straight Edge, Hole Edge.

Materials: Steel, Aluminium, Coppers, Plastics.

E200 - Cod. 380-0027

E200 HSS For materials with powdery chips. Turns clockwise and counterclockwise.

Applications: Straight Edge, Hole Edge.

Materials : Brass, Cast Iron, Plastics.

E300 - Cod. 380-0028

E300 HSS Simultaneously deburrs the inside and outside of holes up to 6mm (0.24") thick. For materials with spiral chips.

Applications: Cross Hole and Both Edge.

Materials: Steel, Aluminium, Coppers, Plastics.

R20 - Cod. 380-0061

R20 HSS Double-edged, round blade for massive deburring tasks on materials with spiral chips.

Applications: Straight Edge and Sheet.

Materials: Steel, Aluminium, Coppers, Stainless Steel and Plastics.

Handle A - Cod. 380-0010

Impugnatura universale

Classic universal handle

Accepts all blade holders. To store spare blades inside handle, simply unscrew the back cap.
